SK2 ICO Number is called Identifikační číslo osoby.

ICO format:	[C1 C2 C3 C4 C5 C6 C7 C8]	Where C1 to C8 are digits.																											
Range:	C1...C8	Numeric.																											
Rules:	C8	Check number.																											
Sample:	25596641	The last number is a control based on the principle of divisibility weighted sum of eleven digits.																											
		<table><tr><td>Digits</td><td>2</td><td>5</td><td>5</td><td>9</td><td>6</td><td>6</td><td>4</td><td>1</td></tr><tr><td>Weight</td><td>8</td><td>7</td><td>6</td><td>5</td><td>4</td><td>3</td><td>2</td><td>-</td></tr><tr><td>Product</td><td>16</td><td>35</td><td>30</td><td>45</td><td>24</td><td>18</td><td>8</td><td>-</td></tr></table>	Digits	2	5	5	9	6	6	4	1	Weight	8	7	6	5	4	3	2	-	Product	16	35	30	45	24	18	8	-
		Digits	2	5	5	9	6	6	4	1																			
		Weight	8	7	6	5	4	3	2	-																			
Product	16	35	30	45	24	18	8	-																					
The resulting weighted sum is $16 + 35 + 30 + 45 + 24 + 18 + 8 = 176$, remainder after dividing this number eleven is 0 ($176 = 16 \times 11 + 0$), so that the check digit shall be equal to $(11-0) \bmod 10 = 11 = 10 \bmod = 1$, so the ID 25596641 is valid.
